Dear Nuzhat,

Congratulations! You are now a member of the world's largest professional society devoted to the field of statistics - the American Statistical Association! We have much to offer you to help advance your career, your education, or both. We value your membership and are eager to serve your needs as a statistician or data scientists. We have enclosed important materials that we hope will help you to take advantage of the many valuable benefits of ASA membership. Please visit www.amstat.org to learn more about the ASA's ongoing activities. Two sets of activities that make ASA special are related to ASA member subgroups: Sections and Chapters. Join one or more ASA Sections to interact with other ASA members who share your specific areas of interest. It's a great way to expand your national/international professional network and learn about the latest advances in a specific specialized area. Local ASA Chapters, on the other hand are great venues to meet local statisticians and data scientists in your geographic area. Both Sections and Chapters greatly enhance your experience as a member of the ASA, and I strongly encourage you to join one or more of ASA's professional sections or local chapters. For more information, see www.amstat.org/chapters and www.amstat.org/sections.

We also host an online ASA Community to seek advice, help others by answering questions, and post thoughts on contemporary issues on all sorts of statistical topics, ranging from assessing covid trials to running software to explaining results: community.amstat.org. There you will also find announcements of other opportunities available to you as a member, including job and intern opportunities, professional meetings, training, and education.

To ensure the delivery of all of your benefits and to help us keep in touch with you, please update your member profile at <https://amstat.users.membersuite.com/profile> if your personal information changes. If you have any questions about your ASA membership, please call Member Services at 1 (888) 231-3473 or email us at asainfo@amstat.org. Welcome to the ASA! We look forward to seeing you at ASA activities and to hearing from you.

With best regards,

Madhumita Ghosh Dastidar
ASA President
